Provider Questions

- 1. How is Beacon defining “urgent levels of care” in the transmittal sent out on 3/20/17 referencing extended authorization timeframes? Also, what levels of care are subject to medical necessity review?**
- 2. Not really a question, but I was wondering if the provider alert for DHMH Memo - Combination of Services Limitations; Level 1, Level 2.1, Level 2.5 that went out last week could be discussed at the meeting...**
- 3. We, ATS at Bayview, want to be sure that this will NOT affect our billing. We are regulated space and don’t want our claims to be denied or get caught up due to this community based change. I would like to be able to discuss this at Fridays (4/14) Provider Counsel Meeting.**
