	GUIDELINES FOR SCORING INDIVIDUAL RECORDS Y = Meets Standard N = Does Not Meet Standard N/A = Not Applicable	GUIDELINES FOR DETERMINING PROGRAM COMPLIANCE WITH STANDARDS Programs are expected to strive to achieve all quality of documentation standards in 100% of instances. Programs that are compliant in less than 85% of the charts reviewed will be required to develop a Performance Improvement Plan (PIP) in conjunction with the CSA, Optum Maryland, BHA, or any other auditing agency.
1. Has the minor participant, 16 years or older, or parent/guardian consented to psychiatric rehabilitation services? COMAR 10.09.59.05 C (3) HG §20-104b., Ann Code of MD YES / NO	 Y = There is documentation that the participant, age 16 years or older, or parent/guardian if younger than 16, has given informed consent to receive PRP services; AND the PRP has received appropriate written authorization to provide counseling services for participants unable to give informed consent. In instances when this is not possible, the program documented the reasons why the individual could not give written consent; verified the individual's verbal consent; and documented periodic attempts to obtain written consent. Additionally, in instances in which a legal guardian signs consent for the participant, the counselor has also obtained legal documentation/court order to verify that consent was given by the appropriate person. N = The record does not contain all the above required elements, as applicable. 	85% of all medical records reviewed contain the required documentation.
2. When required, does the medical record document the participant's choice to receive only off-site or only on-site PRP services? DHMH Maryland Public Mental Health System-Issues Bulletin February 2004 VO Provider Alert - Participant Provider Choice Alert May 2014 YES / NO / NA	Y = The PRP program provides both onsite and offsite PRP services; AND the participant's choice to receive only onsite, only offsite, or both types of services is documented; AND the provider is billing the blended rate for the participant. N = The participant's choice of services to receive is not documented in the record, and the program is billing the blended rate. N/A = The PRP only offers one type of service; the participant has chosen only one service, and PRP does not bill the blended rate; or the participant receives both offsite and onsite services.	85% of all applicable medical records reviewed contain the required documentation.

3. Does the medical record contain a completed MDH Documentation for Uninsured Eligibility Registration and verification of uninsured eligibility status, or documentation of approval by MDH? MDH Guidelines DHMH Maryland Memorandum December 10, 2014 YES / NO / NA	Y = The medical record contains a completed MDH Documentation for Uninsured Eligibility Registration AND verification of uninsured eligibility status; OR documentation of approval by MDH to bill uninsured. N = The medical record does not contain documentation that meets standard for billing uninsured (i.e. the registration and verification are missing, or approval by MDH is missing). N/A = The participant has active Maryland Medicaid; therefore, the documentation is not required.	85% of all applicable medical records reviewed contain the required documentation.
4. Has the PRP documented the participant's eligibility for Federal or State entitlements and assisted the individual in applying for all entitlements for which he/she may be eligible, if he/she does not currently have entitlements? DHMH Maryland Memorandum December 10, 2014 YES / NO	 Y = There record contains documentation that: The parent/guardian has applied for entitlements for which the participant may be eligible; The outcome of the participant's application, if applied; How staff has assisted the parent/guardian in applying for entitlements for the participant, if application has not already been submitted. N = The record does not contain documentation as to whether the participant has entitlements; the outcomes of application; and/or how the PRP assisted the parent/guardian in obtaining benefits for the participant. 	85% of all medical records reviewed contain the required documentation.
5. Does the record contain a referral for PRP services by a licensed mental health professional who provides services to the participant, that includes a PBHS specialty mental health DSM-V diagnosis and date of diagnosis? COMAR 10.09.59.05 C MDH Guidelines DHMH Memo April 25, 2012 Maryland Medical Necessity Criteria: Level of Care VI: Outpatient Services ICD-10 Crosswalk	 Y = The record contains a referral: By a licensed mental health professional who provides inpatient, residential, or outpatient services to the participant prior to referral and while enrolled in PRP services, and is enrolled as a provider in the Program with an active status on the date of service; AND That includes a PBHS specialty mental health DSM-V/ICD-10 diagnosis in the priority population, and when the diagnosis was made. N = There is no referral documentation in the record, or the 	85% of all medical records reviewed contain the required documentation.

YES / NO **Name of referring clinician: 6. Was a screening assessment scheduled within 5 working days of the program's receipt of a PRP referral to determine medical necessity for rehabilitation services? Accreditation Standards YES / NO	referral/referral source does not meet the minimum requirements listed above. Y = A screening assessment, to determine whether psychiatric rehabilitation services are medical necessary, was completed by PRP staff within 5 working days of receiving a PRP referral, AND the determination was provided in writing to the parent/guardian within 5 working days of the screening assessment. N = A screening assessment was not completed; a screening assessment was not scheduled within 5 working days after receipt of a PRP referral; and/or the determination was not provided in writing to the parent/guardian within 5 days of the screening assessment.	85% of all medical records reviewed contain the required documentation.
7. Is there a comprehensive, face-to-face PRP Rehabilitation Assessment that was completed within 14 calendar days of initiation of PRP services? Accreditation Standard CMS State Medicaid Manual Part 4 4221 B YES / NO / NA	 Y = The assessment documents, at a minimum: The minor's age and developmentally appropriate strengths, skills, and needs in the following areas: Self-care skills Social, peer, family, and teacher interaction skills; Participation in psychiatric treatment; Semi-independent living skills; Family support and resources; Academic achievement; Community and informal support systems; and Adaptive equipment or resources; As relevant, a review of the individual's legal status and forensic history, if any; AND The minor's history of physical, abuse, sexual abuse, or substance abuse, if any. N = There is no Rehabilitation Assessment in the record, or the Rehabilitation Assessment is present, but missing one or more of the required elements listed above. N/A = The participant is a new referral, an assessment has not yet been completed, and it is still within the 14-days of initiation of services; or the participant discharged prior to the development of 	85% of all applicable medical records reviewed contain the required documentation.

	the accessment	
8. Was an initial IRP completed within 30 calendar days of the initiation of PRP services? Accreditation Standards	the assessment. Y = The initial IRP was completed within 30 calendar days of the initiation of PRP services, OR there is documentation in the record as to why the IRP was not completed within 30 days.	85% of all applicable medical records reviewed contain the required documentation.
Annotated Code of MD 10-706 CMS State Medicaid Manual Part 4 4221 C	The IRP is individualized and includes, at a minimum:	
YES / NO / NA	 Developed in collaboration with: The minor; The parent or guardian, if appropriate; AND If appropriate and with proper consent, other mental health service providers, as available; AND Goals/objectives that have been developed directly from the assessment, which identified needs, strengths, symptoms, skills deficits, resources, rehabilitation expectations, and responsibilities; Goals/objectives that are written in observable terms and can be measured; A description of how the needed and desired skills and supports will help the minor to be successfully maintained in the home or community, and manage the minor's psychiatric disorder; Interventions that are congruent with the goals/objectives of the IRP; When appropriate, identification of, recommendations for, and collaboration with other services to support the individual's recovery and rehabilitation, including but not limited to mental health treatment, residential services, self-help organizations, and somatic care. N = There is no IRP; the initial IRP was not completed within 30 days of the initiation of PRP services, and there is no documentation in the record explaining why the IRP was not completed within 30 days; the IRP was not individualized (looks generic and/or duplicative to other participant IRPs); or the record does not contain all of the above required elements, as applicable. 	

9. Are IRP reviews completed at a minimum of every 3 months? Accreditation Standard Annotated Code of MD 10-706 CMS State Medicaid Manual Part 4 4221 E YES / NO / NA	 N/A = The participant is a new referral and an IRP has not yet been developed; or the participant discharged prior to the development of the IRP. Y = IRP reviews are completed at a minimum of every 3 months, and include: The individual's progress toward goals, changes in goals based on progress, and changes in interventions; Signature and date of the participant or legal guardian, and the individual's rehabilitation coordinator OR documentation that the participant verbally agreed to the IRP, and the rationale for refusal to sign is also documented; AND Documentation of the participant being offered a copy of the IRP, and whether they accepted or declined. N = The record does not contain IRP review(s); reviews have not been completed at a minimum of every 3 months; or the IRP reviews do not contain all the above required elements, as applicable. N/A = The participant has been enrolled less than 3 months; or the participant discharged prior to the need for an IRP review. 	85% of all applicable medical records reviewed contain the required documentation.
10. Does the record contain complete contact/monthly progress notes which reflect goals and interventions on the IRP are being implemented, participant response to the interventions and progress towards goals, and justification for the need for ongoing PRP services? COMAR 10.09.59.03 D CMS State Medicaid Manual Part 4 4221 D 6 & 7 YES / NO / NA	 Y = Contact notes are present and contain all the following: Date and location of service; The start time and either the duration or end time; A legible signature, which may include an electronic signature, and printed or typed name of the program staff member providing care, with the appropriate title; The chief medical complaint or reason for the visit; The delivery of services specified by the IRP or ITRP; A brief description of the service provided; Participant responses to the interventions by providers; AND Progress towards goals which from the IRP, and justification for continued PRP services as evidenced by the documentation supporting that the participant continues to meet medical necessity criteria. 	85% of all applicable medical records reviewed contain the required documentation.

Psychia	atric Renabilitation Program - Minor (PRP - M)	1
	 Monthly notes are present which the rehabilitation coordinator shall record in the individual's medical record, either a contact note or a progress summary note that includes: An assessment of the individual's progress toward goal achievement that incorporates the perspective of both the individual served and staff involved; Changes in the individual's status; and A summary of the rehabilitation services and interventions provided N = There are no contact/monthly notes in the record; contact/monthly notes are missing at least one of the required elements listed above. N/A = The participant discharged prior to face-to-face rehabilitation services beginning. 	
11. Is there evidence that the program provides rehabilitation activities directed toward the development of restoration of skills, and information and referrals for additional services? Maryland Medical Necessity Criteria COMAR 10.63.03.10 A YES / NO / NA	 Y = Documentation is present in the record which indicates the program provides rehabilitation activities directed toward the development or restoration of skills including: Age-appropriate self-care skills (personal hygiene; grooming; nutrition; dietary planning; food preparation; self-administration of medication); Social skills (community integration activities; developing natural supports; developing linkages with and supporting the minor's participation in community activities); Independent living skills (maintenance of the minor's living environment; community awareness; mobility skills; money 	85% of all applicable medical reviewed contain the required documentation.

management; accessing available entitlements);

- Activities that support the minor's cultural interests;
- Conflict resolution;
- Anger management;
- Interactive skills with peers and authority figures;
- Maintaining personal living space;
- Maintaining age-appropriate boundaries;
- Maintaining personal safety in a social environment; and
- Time management (including constructive use of structured and unstructured time).

ALSO:

• There is documentation showing recommendations and/or

al records

	referrals for and collaboration with other mental health services to support the participant's recovery and rehabilitation, included but not limited to mental health treatment, residential services, self-help organizations, and somatic care. N = There is clinical information that indicates the need for recommendations for and collaboration with other services, but the record does not contain documentation of it or attempts to collaborate; or the record is missing documentation (IRP, contact/monthly notes) and therefore, it cannot be determined if recommendations would be needed, or collaboration has been done. N/A = There are no additional mental health services needed; or there is documentation that the participant has refused referrals for and/or does not give permission for collaboration with additional service providers.	
12. Does the record contain documentation of coordination and/or collaboration, including the participant's needs and progress, with the licensed treating and referring mental health provider? MDH Guidelines DHMH Memo April 25, 2012 State of Maryland Medical Necessity Criteria YES / NO	 Y = The record contains contact note documentation of collaboration and coordination which includes: The nature and extent of contact, to include the date, mode of contact, identity of individual being contacted (with title and credentials); The content of the exchange, of clinical and rehabilitative information focused on the participant's progress, as it relates to the IRP; AND Community mental health programs providing services to the individual. NOTE: Attempts alone are not sufficient. N = There is no documentation of coordination/collaboration as required above; the notes are present but lacking one or more of the requirements listed above. 	85% of all medical records reviewed contain the required documentation.
13. Is there documentation of the participant's past and current somatic/medical history? Accreditation Standards YES / NO	Y = The record contains documentation of the participant's past and current somatic/medical history, including: o The individual's somatic health problems, if any; o Relevant medical treatment, including medication; and o A recommendation, if needed, for somatic care follow-up	85% of all applicable medical records reviewed contain the required documentation.

	N = The record does not contain documentation of the participant's past and current somatic/medical history; or the documentation is lacking one or more of the requirements listed above.	
14. Within 10 working days after an individual is discharged from a program, was a signed discharge summary completed? Accreditation Standards YES / NO / NA	 Y = The record contains a discharge summary, which: Is completed within 10 working days after the participant has discharged from the program; Is signed and dated by the staff person responsible for coordinating services to the individual; And includes: Reason for admission, Reason for discharge, Services provided (including frequency/duration of services), Progress made, Diagnosis at the time of discharge (if appropriate), Current medications (if any), Continuing service recommendations, Summary of the transition process, Extent of individual's involvement in the discharge plan. N = There is no discharge summary in the record; the summary was not completed within 10 working days following the participant's discharge from the agency; and/or the discharge summary does not contain all of the required elements as listed above. N/A = The participant remains enrolled in treatment. 	85% of all applicable medical records reviewed contain the required documentation.
